

'My cargo is insured'. **Really?**

Few people know this, but during cargo movements, in Canada as well as internationally, the common carrier has only *limited liability* with respect to YOUR cargo. Therefore, a shipment not covered by additional insurance can cause a major loss or even jeopardize your business.

Did you know? By the Warsaw Convention, carriers have *limited* their liability.

The responsibility of transports is limited to:

Air: 30 USD/kg

Ocean: 500 USD/loading unit

Land: 2,00 CAD/lbs

Train: 0,92 CAD/lbs

Example: Transport of shipping containers: You will only receive **\$500** for a container lost at sea or damaged, regardless of the value of the goods!!! Moreover, you will receive this \$500 one year after having filed a claim, sent the documentation and **proven their responsibility!**

For just a few dollars per shipment, take out cargo insurance coverage today that will protect all of your shipments, whether by plane, truck, boat, train or through an integrator.

With our Groupe Transit, work with peace of mind and focus on what you do best:

DEVELOPPING YOUR BUSINESS!
